

Ezra Santiago

US Citizen | ezrasantiago44@gmail.com | <https://sezra44.github.io/> | 602-761-6433 | Phoenix, Arizona

EDUCATION

Arizona State University, Barrett The Honors College

Tempe, Arizona

Undergraduate Student, BS Mechanical Engineering

Expected Graduation, December 2027

- **GPA:** 4.00
- **Relevant Coursework:** Statics, Mechanics of Materials, Structural mechanics, CAD & FEA, Circuits, Thermodynamics, Fluid Dynamics, Dynamics of Rigid Bodies

ASU Preparatory Academy Downtown Phoenix

Graduated, May 2024

- Valedictorian (Rank: 1/81), GPA: 4.4, SUMMA CUM LAUDE

ENGINEERING EXPERIENCE

PCL Industrial – Kyrene Water Reclamation Facility Reactivation

Tempe, Arizona

Field Engineering Intern

May 2026 - Present

- Support construction and engineering activities on a large-scale municipal water infrastructure project through field verification, as-built documentation, redline management, quality control tracking, and equipment certification reviews.
- Review engineering drawings, specifications, submittals, RFIs, and vendor documentation to identify discrepancies, verify installation requirements, and support project execution and turnover.
- Coordinate with project engineers, superintendents, subcontractors, and vendors to resolve field issues, track project progress, and support material procurement and construction activities.

Sun Devil MotorSports Formula SAE

September 2024 – Present

Suspension Team Member

- Designed and iterated custom scale pads in CAD to accurately level the Formula SAE vehicle, improving setup repeatability and enabling faster track-side suspension adjustments during testing.
- Analyze suspension kinematics and geometry, including camber, caster, toe, roll-center behavior, and wheel travel, to evaluate suspension behavior throughout the vehicle's range of motion.
- Apply CAD modeling, vehicle dynamics principles, quarter-car modeling, and material/cost considerations to support suspension design, packaging, and component selection.

Pipeline Engineering and Design

Tempe, Arizona

Engineering Intern

October 2023 – December 2023

- Designed 2D and 3D components in OnShape CAD and reverse-engineered physical components by translating measurements and geometry into digital models.
- Applied engineering design and CAD principles to improve modeling accuracy and develop familiarity with professional engineering and consulting workflows.
- Collaborated with other CAD team members to review models, refine design techniques, and improve component accuracy.

WORK EXPERIENCE

Trader Joes

Tempe, Arizona

Crew Member

January 2025 - Present

- Developed high level communication skills by managing client expectations and resolving service bottlenecks in a fast-paced environment
- Optimized floor workflows and inventory rotation to maintain operational efficiency during high-volume peak hours

SKILLS

- **CAD & Design:** SolidWorks, Onshape CAD, 2D/3D Modeling, Reverse Engineering, Engineering Drawings, Design Iteration
- **Engineering Analysis:** MATLAB, Quarter-Car Modeling, Vehicle Dynamics, Suspension Kinematics & Geometry, Basic Data Analysis
- **Mechanical Systems:** Suspension Systems, Mechanical Troubleshooting, Component Installation, Mechanical Systems Maintenance & Repair
- **Electronics & Hardware:** Arduino, Electronic/Hardware Diagnostics, Basic Sensor Integration, Electrical Troubleshooting
- **Engineering & Documentation Tools:** Bluebeam Revu, Microsoft Excel, PowerPoint, Word, Technical Documentation, Redline/As-Built Drawing Management
